

## Science and Society Available Courses

10/28/09

- You must take at least 6 credit hours.
- At least one course must be upper division.
- Only one of these courses may be used to meet requirements in the major or related fields in the major; otherwise courses taken to fulfill this requirement cannot be used to fulfill other requirements in the major, related fields in the major, or the University General Studies -- except the literacy and critical inquiry (L) and the awareness areas (C, G, H).
- Students must receive a grade of "C" or above in both courses.
- The combined courses must fulfill all learning goals (1, 2, & 3) of the requirement.
- To qualify the course must be taken under the same course title as listed on this checklist. Note that omnibus courses numbered 194, 294, 394, 494 and certain other special topic courses such as EN HST 201, JUS 200, POS 426, WST 498 change titles and not all titles have been approved; these titles are usually taught by a single faculty person, thus we have included their names to make identifying these courses easier.
- If an instructor is specified you must take the course with that instructor to earn credit, whether the course is an omnibus course or not. If no instructor is specified then any ASU instructor qualifies.
- Additional courses will be added to this list as they become available. Check often for updates to this list at <http://clas.asu.edu/scienceandsociety.htm>
- These courses must be taken on the Tempe campus unless otherwise designated. Key: Cps. = Campus; T = Tempe; D = Downtown; P = Polytechnic; W = West.
